# Cataract Surgery Vision Options

## Our Recommendation for Your Surgical Plan

LIFESTYLE VISION <i>The most independence from glasses with a fuller range of focus.</i>	ASTIGMATISM REDUCTION <i>Glasses needed for near vision, maximizes distance vision.</i>	STANDARD VISION <i>Will need glasses to optimize vision, overall clarity improved.</i>
		
<p>Bladeless laser cataract surgery (for appropriate candidates)</p> <p>Lifestyle lens implant</p> <p>Custom astigmatism reduction (for appropriate candidates)</p> <p>State-of-the-art imaging and diagnostic testing</p> <p>LASIK enhancement, if needed</p> <p><b>\$3,000 per eye</b></p> <p>Plus co-payments, co-insurance and deductibles</p>	<p>Bladeless laser cataract surgery (for appropriate candidates)</p> <p>Custom astigmatism reduction</p> <p>State-of-the-art imaging and diagnostic testing</p> <p>LASIK enhancement, if needed</p> <p><b>\$2,000 per eye</b></p> <p>Plus co-payments, co-insurance and deductibles</p>	<p>Manual cataract surgery</p> <p>Monofocal Intraocular Lens</p> <p>Patient is responsible for co-payments, co-insurance and deductibles</p>
NOTES:	NOTES:	NOTES:

\*This is a simulation of post-operative results and is not intended to be a guarantee of actual vision outcome. Results vary by patient.
